

MSC-K Camera Jack

The MSC-K provides a female RCA jack on the front side of the panel for interfacing a video camera into a distributed video system. The backside connection is a female F type connector. The interface connection is mounted in a single-gang decora style lexan plastic panel. The MSC-K is an easy way to interface a camera into a video system. The module mounts into a standard single-gang electrical box (*not provided*), and is finished off using a matching decora coverplate (*see HPS-1*). Modules are available in Brown, Ivory or White.
