

## **MSC-V Kit**

### **Volume Control Kit**

The MSC-V kit contains all the parts required to build your own volume controls using the attenuator/transformer or potentiometer of your choice. The kit includes a labeled decora panel with a color coordinated knob. Mounting hardware is also included in the kit. The volume control can be finished off using a matching decora coverplate (*see HPS Series of coverplates*).

The MSC-V kits are available in brown, ivory or white.
