

T70V 70.7V Toroidal Output Transformer

70 Volt Output

easy installation

low profile

The T70V provides 70.7V output for the IA-204R and IA-204S in-wall amplifiers. It comes on a bracket that mounts on the back of the amplifiers, then the wiring is accomplished via a 3-pin molex connector.

Specifications:

Primary	9 Volts RMS (Black) 20W @ 4ohms
Secondary	70V @ 0.28A (Red)
Frequency Response	3dB/ 50Hz - 15kHz
Dimensions	2.5" Dia. X 0.90 H
