

MSC-E

TV / Video Jacks

The MSC-E provides a video jack and an empty hole for mounting a Blonder-Tongue or equivalent TV tap on a single-gang decora style panel. The MSC-E is an easy way to interface to video and television signals. The video connector is a female RCA to F connection. The module mounts into a standard electrical box (*not provided*), and is finished off with a matching decora coverplate (*see HPS series*).

The MSC-E module is available in brown, ivory (*shown above*) or white.
