

MSC-PV

Sound System Power On / Off w/ Volume Control

The MSC-PV module is a lighted switch for turning a sound system on and off, and a 10K potentiometer for controlling the volume of the sound system when it is on. The module mounts into a standard electrical box (*not provided*), and is finished off with a matching decora coverplate (*see HPS1*).

Connections on the backside of the module are made via a euro style terminals.

The MSC-PV module is available in brown, ivory or white.
